

PLATFORM OPERATIONS SUPPORT SERVICE ADDENDUM

This Platform Operations Support Service Addendum (this “Addendum”) is entered into as of _____ (the “Effective Date”) by and between **Triple V Industries INC.**, a Delaware corporation doing business as Vincere Portfolios (“Vincere”), and _____ (“Client”), and supplements the Vincere Portfolios Cash Account Futures Algorithmic Software License Agreement between the parties dated _____ (the “License Agreement”). Capitalized terms not defined in this Addendum have the meanings given in the License Agreement.

RECITALS

A. Under the License Agreement, Vincere licenses its proprietary automated futures trading algorithms and related software and tools (as defined in the License Agreement, the “Algorithms”) that Client operates on infrastructure owned or controlled by Client, including Client’s own virtual private server (“VPS”), Client’s own NinjaTrader platform instance, and Client’s own brokerage account(s).

B. Client wishes to purchase, and Vincere agrees to provide, an optional operational support service under which Vincere personnel perform clerical and ministerial platform-operations tasks strictly in accordance with instructions selected and authorized by Client, as documented in Schedule A (Client Standing Instructions).

C. The parties intend and agree that the Service is administrative in nature; that all trading decisions — including which algorithms run, on which account(s), and with which settings — are made solely by Client; and that Vincere exercises no discretion, judgment, or trading authority of any kind over Client’s account.

1. SERVICE ELECTION AND FEE

Client elects to purchase Vincere’s optional **Platform Operations Support Service** (the “Service”) for a fee of **\$250 per month**, payable monthly in advance. The Service is separate from, and in addition to, the Software License, and consists solely of operational assistance in executing Client’s Standing Instructions as set forth in Schedule A.

2. NATURE OF THE SERVICE; NO DISCRETION; NO ADVICE

2.1 Clerical Service Only. The Service is limited to clerical and ministerial execution of Client’s Standing Instructions. Vincere personnel performing the Service (“Operations Personnel”) do not select algorithms, do not select settings, do not decide when or whether to trade, do not place, modify, or cancel any order manually, and do not exercise judgment or discretion of any kind with respect to trading on Client’s account.

2.2 Client Sole Authority. Client has sole and exclusive authority over all trading decisions on Client’s account(s), including which Algorithms are enabled, the settings and parameters with which they run, and the account(s) on which they run. Every action taken by Operations Personnel under this Addendum is taken pursuant to, and only pursuant to, Client’s prior written authorization as documented in Schedule A.

2.3 Uniform Recommendations; No Individualized Advice. Any settings, parameters, or operational guidance published by Vincere (including the “V1 Default Settings”) are uniform materials published identically to all Vincere clients. Vincere does not tailor settings, parameters, or guidance to Client’s individual account, financial situation, objectives, or trading results, and nothing provided under this Addendum constitutes individualized trading advice or a recommendation directed to Client’s particular circumstances. Client is free to disregard published materials and to elect its own settings in Schedule A.

2.4 No Registration; No Reliance. Vincere is a software licensor and is not registered as a commodity trading advisor, commodity pool operator, futures commission merchant, or introducing broker, and Client acknowledges that it is not relying on Vincere for individualized trading advice. Client acknowledges that trading futures involves substantial risk of loss and is not suitable for all persons.

2.5 No Fiduciary or Agency Relationship. The Service does not create a fiduciary, advisory, partnership, joint-venture, or agency relationship between the parties. Vincere acts solely as an independent contractor performing the ministerial tasks authorized in Schedule A.

3. SCOPE OF SERVICES

Subject to Client’s Standing Instructions, Vincere agrees to perform the following during the subscription period:

- Daily activation and deactivation of the Algorithms elected by Client, at the times and on the schedule specified in Schedule A.
- Monitoring of the operational status of the elected algorithms, including periodic connection checks on trading days.
- Installation and implementation of algorithm updates released by Vincere, in accordance with Client’s update election in Schedule A.
- Application of the settings elected by Client in Schedule A (whether Client elects to track the published uniform V1 Default Settings baseline or elects Client’s own custom settings).
- Monitoring for software or VPS operational issues affecting the Algorithms.
- Restarting, reconnecting, and re-enabling the elected algorithms after technical interruptions, in accordance with Client’s standing reconnection authorization in Schedule A.
- Monitoring Vincere’s published announcements and update notices relating to algorithm deployment, and acting on them only as authorized in Schedule A.
- Delivery of an end-of-day operational report to Client on trading days.

4. STANDING INSTRUCTIONS

4.1 Schedule A Controls. All Services are performed exclusively in accordance with the Client Standing Instructions set forth in Schedule A, as amended from time to time in accordance with this Section 4. Vincere shall have no obligation or authority to take any action not authorized in Schedule A.

4.2 Written Instructions; Channels of Record. Client may amend its Standing Instructions only by written

message delivered through a Channel of Record: (a) the official Vincere Discord server, by support ticket or by direct message with Vincere's designated operations account, sent from Client's registered Discord account identified in Schedule A; or (b) email from Client's email address on file. Amendments are effective only upon Vincere's written confirmation through a Channel of Record. Vincere will not act on verbal instructions, including telephone or voice-chat communications. Written instruction and confirmation messages exchanged through the Channels of Record are retained by Vincere and constitute the operational record of Client's authorizations under this Addendum.

4.3 No Gap-Filling. If a situation arises that is not addressed by the Standing Instructions, Vincere will take no action with respect to Client's account other than to notify Client and request written instructions.

5. CLIENT RESPONSIBILITIES

Client shall remain solely responsible for:

- Maintaining ownership and control of the brokerage account(s).
- Funding the account(s) and maintaining required margin.
- Paying brokerage commissions, exchange fees, platform fees, and VPS fees.
- Maintaining and safeguarding brokerage login credentials. Vincere does not request, accept, or store Client's brokerage portal credentials.
- Ensuring that Client's use of the Algorithms and the Service complies with the terms, rules, and policies of Client's broker and futures commission merchant.
- Reviewing end-of-day reports and account activity, and promptly notifying Vincere in writing of any discrepancy.

6. NO CUSTODY OF FUNDS; NO TRADING AUTHORITY

6.1 Vincere shall never have authority to: withdraw funds; transfer funds; wire money; change banking instructions; remove Client assets; place, modify, or cancel any order manually; or trade any product outside the operation of the Algorithms as elected by Client in Schedule A. Client retains full ownership and control of all account assets at all times.

6.2 Nothing in this Addendum grants Vincere a power of attorney, discretionary trading authority, or any authority to cause transactions to be effected for Client's account other than the clerical execution of Client's specific written authorizations in Schedule A.

7. OPERATIONAL ACCESS AND AUTHORITY

7.1 Access. Solely for purposes of performing the Service, Client grants Operations Personnel access to Client's VPS and NinjaTrader platform instance. Access credentials provided by Client are limited to the VPS and platform layer; Client shall not provide, and Vincere shall not accept, brokerage portal or banking credentials.

7.2 Authorized Actions. In accordance with, and only in accordance with, Client's Standing Instructions, Client authorizes Operations Personnel to: start and stop the elected Algorithms; enable or disable

individual elected algorithm strategies; install updated strategy files; apply the settings elected by Client in Schedule A; and perform routine operational maintenance necessary to keep the Algorithms functioning. This authority does not extend to any action described in Section 6.1.

8. UNIFORM PUBLISHED SETTINGS; UPDATES

8.1 Publication Model. Vincere publishes recommended baseline settings (currently designated “V1 Default Settings”) and operational notices identically to all clients. Changes to the published baseline and any uniform operational notices (including notices suspending an algorithm for all clients) are distributed to all clients through Vincere’s standard announcement channels.

8.2 Client Election. Whether the published baseline (as updated from time to time) or Client’s own custom settings are applied to Client’s account is determined solely by Client’s election in Schedule A. If Client elects to track the published baseline, Operations Personnel will apply baseline updates as published, and Vincere will include any applied change in the end-of-day report. If Client elects custom settings, Operations Personnel will apply only the settings Client specifies, without review, endorsement, or comment.

8.3 Updates. Vincere will monitor released software updates, install required updates within a commercially reasonable period in accordance with Client’s update election in Schedule A, and maintain documentation showing update implementation dates, available to Client upon reasonable request.

9. PERFORMANCE GUARANTEE

9.1 Additional Eligibility Condition. Section 2.4 of the License Agreement provides Client a One-Year Performance Guarantee, subject to the conditions stated in that Section. As an additional condition of eligibility applicable to Clients receiving the Service, the elected Algorithms must be operated with Vincere’s published uniform V1 Default Settings baseline; accordingly, eligibility for the One-Year Performance Guarantee requires that Client elect Option A (Published Baseline) in Part 2 of Schedule A.

9.2 Effect of Custom Settings Election. Election of Option B (Client Custom Settings) in Part 2 of Schedule A voids Client’s eligibility for the One-Year Performance Guarantee under Section 2.4 of the License Agreement, as supplemented by this Section 9. Whether to elect Option A or Option B remains solely Client’s decision; Vincere will execute either election without comment.

9.3 Protection Where Option A Is Elected. Where Client has elected Option A and Vincere performs the Service, Client shall not lose eligibility for the One-Year Performance Guarantee because of Vincere’s failure to: install updates; apply the published V1 Default Settings baseline; activate or deactivate elected algorithms in accordance with the Standing Instructions (including any resulting shortfall in the Active Trading Requirement under Section 2.4(ii) of the License Agreement); or otherwise perform the Service consistent with Client’s Standing Instructions. If any failure to satisfy the conditions of Section 2.4 of the License Agreement (as supplemented by this Section 9) results from Vincere’s performance or non-performance of the Service, such failure shall not be attributed to Client.

10. COMMUNICATIONS AND REPORTING

Vincere agrees to notify Client of: major operational issues affecting Client’s elected algorithms; prolonged software outages; VPS failures; brokerage connectivity failures; and any uniform published notice

suspending an algorithm for all clients. Vincere will deliver an end-of-day operational report on trading days summarizing the actions taken under this Addendum.

11. SERVICE AVAILABILITY

The Service is intended to provide operational support on trading days. Neither party guarantees uninterrupted availability due to: internet outages; brokerage or FCM outages; exchange outages; force majeure events; or platform failures beyond Vincere's control.

12. TERM; FEE; TERMINATION

The monthly fee is \$250, payable monthly. Client may cancel the Service with thirty (30) days' written notice. Vincere may terminate the Service with thirty (30) days' written notice. Termination of the Service does not terminate the Software License. Upon termination of the Service, all operational responsibility for enabling, monitoring, and reconnecting the Algorithms reverts to Client.

13. STANDARD OF CARE; RISK DISCLOSURE

13.1 Vincere agrees to exercise commercially reasonable care in providing the Service consistent with its ordinary business practices.

13.2 Nothing in this Addendum guarantees profitable trading, eliminates the risks associated with futures markets, or constitutes a representation as to the future performance of any algorithm. Futures trading involves substantial risk of loss; past performance, whether actual or simulated, is not indicative of future results. Client can lose more than Client's initial investment.

14. LIMITATION OF LIABILITY

14.1 No Liability for Trading Results. Vincere shall have no liability for trading results, market losses, slippage, missed fills, market movements, or the performance of any algorithm operated in accordance with Client's elections and Standing Instructions. Client acknowledges that all trading outcomes on Client's account result from Client's own elections and market conditions.

14.2 Exclusion of Indirect Damages. To the maximum extent permitted by law, neither party shall be liable for any indirect, incidental, special, consequential, or punitive damages, or for lost profits or lost trading opportunities, arising out of or relating to the Service, regardless of the theory of liability and even if advised of the possibility of such damages.

14.3 Liability Cap. Except in cases of gross negligence, willful misconduct, or fraud, Vincere's aggregate liability arising out of or relating to the Service shall not exceed the total Service fees paid by Client under this Addendum during the twelve (12) months preceding the event giving rise to the claim.

14.4 Carve-Out. Nothing in this Section 14 limits or modifies the attribution protection in Section 9.3, which shall apply notwithstanding this Section.

15. DOCUMENTATION

Upon reasonable request, Vincere shall provide documentation showing: update dates; algorithm versions; settings applied (and the corresponding Client election under Schedule A); and operational changes made

during the preceding twelve (12) months.

16. ENTIRE AGREEMENT; GOVERNING LAW; ORDER OF PRECEDENCE

Except as modified herein, all provisions of the License Agreement remain in full force and effect, and this Addendum is governed by the governing-law and dispute-resolution provisions of the License Agreement. In the event of a conflict between this Addendum and the License Agreement with respect to the Service, this Addendum controls. This Addendum, together with Schedule A and the License Agreement, constitutes the entire agreement of the parties with respect to the Service.

IN WITNESS WHEREOF, the parties have executed this Addendum as of the Effective Date.

SCHEDULE A — CLIENT STANDING INSTRUCTIONS

These Standing Instructions constitute Client's specific written authorization for all actions taken by Vincere under the Addendum. Vincere will take no action not authorized below. Client may amend these instructions only as provided in Section 4.2 of the Addendum.

PART 1 — ALGORITHM ELECTIONS

Client elects to run the following Algorithms on Client's account(s). Only algorithms listed below will be enabled.

Licensed Algorithm	Elect to Run (Y/N)	Instrument(s) / Contract(s)	Settings Source (A or B)
ARPD		MGC	
B2X		M2K	
DJDR		YM	
FSA		MNQ	
G4M		MES	
IFSP		NG	
MST		YM	
OGX		MNQ	
PLPI		PL	
RBO		M2K	
SYFY		MES	
URGO		MNQ	

PART 2 — SETTINGS ELECTION (*MUST SELECT ONE)

Option A — Published Baseline. Client elects to run the elected algorithms with Vincere's published uniform V1 Default Settings baseline, as updated and published identically to all clients from time to time. Client authorizes Operations Personnel to apply baseline updates as published. Applied changes will be reflected in the end-of-day report. **This election preserves Client's eligibility for the One-Year Performance Guarantee, subject to the conditions of Section 2.4 of the License Agreement and**

Section 9 of the Addendum.

Option B — Client Custom Settings. Client elects to run the elected algorithms with Client's own settings, specified in an exhibit attached to this Schedule A. Client acknowledges these settings are Client's own selection; Operations Personnel will apply them without review, endorsement, or comment. **CLIENT ACKNOWLEDGES THAT ELECTING OPTION B VOIDS CLIENT'S ELIGIBILITY FOR THE ONE-YEAR PERFORMANCE GUARANTEE (SECTION 2.4 OF THE LICENSE AGREEMENT; SECTION 9 OF THE ADDENDUM).**

PART 3 — DAILY OPERATIONS SCHEDULE

Client authorizes Operations Personnel to enable the elected algorithms at the start of each trading session and disable them at the end of each trading session, per the schedule published to all clients, unless a different schedule is specified in writing via email or direct discord communication.

PART 4 — DISCONNECTION AND RECONNECTION STANDING AUTHORIZATION

If Operations Personnel detect a platform, VPS, data-feed, or connection failure on a trading day, Client authorizes Operations Personnel — without further per-event authorization — to restart the platform, reconnect the account connection, and re-enable the algorithms elected in Part 1 with the settings elected in Part 2. Each such event will be reflected in the end-of-day report.

Client grants the standing reconnection authorization above.

PART 5 — UPDATE INSTALLATION AUTHORIZATION

Client authorizes Operations Personnel to install algorithm and strategy-file updates released by Vincere within a commercially reasonable period after release.

PART 6 — INSTRUCTION CHANGES AND CHANNELS OF RECORD

All amendments to these Standing Instructions must be delivered in writing through a Channel of Record: (a) the official Vincere Discord server, by support ticket or by direct message with Vincere's designated operations account, sent from Client's registered Discord account below; or (b) email from Client's email address on file below. Amendments are effective only upon Vincere's written confirmation. Verbal instructions, including telephone and voice-chat communications, will not be acted upon. Written instruction and confirmation messages are retained by Vincere as the operational record.

Client's registered Discord account (username):

Client's email address on file:

PART 7 — CLIENT ACKNOWLEDGMENTS

- Client has sole authority over all trading decisions on Client's account(s); Vincere exercises no discretion of any kind.

- Vincere's published settings and materials are uniform and identical for all clients and are not individualized advice tailored to Client.
- Client is free to test, modify, and elect settings other than the published baseline at any time by written amendment to this Schedule; electing custom settings (Option B) voids eligibility for the One-Year Performance Guarantee.
- Futures trading involves substantial risk of loss and is not suitable for all persons; Client can lose more than Client's initial investment.
